

Amateur Boxing Alliance (England) C.I.C.

26th March 2024

Message to the British & Irish Boxing Authority (BIBA)

Dear Ginaluca,

Since our meeting at the London Military where we agreed to consider the benefits of combining both of our Bodies, matters have progressed beyond what we agreed as preliminary stages to nearly an announcement that a final agreement has been reached - **this is not the case!**

What we agreed was that you would organise two trial Pro/Am events, one in Scotland and one in England and we would consider them - meanwhile you would also seek to have the Alliance recognised by the W.B.A..

If both of these targets were found to be successful we would hold further formal meetings to lay down the agreement for a partnership. We would then each issue a formal statement from B.I.B.A and the Alliance.

We did warn you that not all Amateur Clubs were happy with Pro/Am events and we would have to form an agreement that was acceptable to the people involved.

Since then, I have seen several e-mails from your office announcing an agreement that has not as yet been ratified by us upsetting many of our members.

I would remind you that no agreement has been reached until we are satisfied with the trial events and the W.B.A. recognition.
